A large number of applications for rooms could not be consider ed as every nook and corner in the building suitable for guests has been secured. Mr. A. R. Parkhurst, who is personally superintending the work, informed a representative of THE TIMES this week that he would put in electric lights if it can be arranged. The number of lights required will be 200. The trees about the building will be trimmed so as to give a better view of the fine scenery which pleases the eye from any point on the heights.

Water Works.

It is believed the problem of water works for Ellicott City can be successfully solved by taking advantage of such from which Mr. John F. Kirkwood gets stream which has abundantly supplied him with water including a number of neighbors around the base of the hill on which he resides, and the query has naturally arisen, Why not increase this service indefinitely? It takes but a little effort at leveling to show that the greater portion of our city can be supplied with water by the natural flow of the stream which will go into a basin sufficiently high to reach the court house steps. This, as will be seen, would supply al the lower parts of the city. The higher service could be easily obtained by the use of rams which would throw it into a basin on one of the high points on Mr. Jackson Isaac's place, which would come near covering the very highest points in and about the city. Such a system when once in operation would be the most economical that could be devised and seems to be awaiting the necessary enterprise to put it through.

The Avalon Bridge. Colonel Charles Marshall and Mr. Donaldson waited on the Baltimore County Commissioners, at Towson, on Tuesday last, and asked them to pass an order permitting the Elkridge Bridge Company, an organization of residents in the neighborhood of Lawyer's Hill, near the Relay, to construct a bridge across the Patapsco river, in the vicinity of the Viaduct bridge. The gentlemen stated that there was no bridge across the Patapsco, between 1!chester and Elkridge Landing a distance of four miles; that the bridge proposed to be erected was a necessity; that it would be more countians conduct an association." built and maintained by private subscription, and that the Howard County Commissioners had already given their resulted in the county being compelled to purchase and maintain the bridges after they were built, public sentiment having been brought to bear to accomplish this. The gentlemen answered this objection by saying that public sentiment was as likely to require the county to build the bridge now. President Magruder said that the request

DEATH OF ELISHA BROWN,

known and most highly respected citizens of the Fifth district died at his home near Fulton, Friday of last week, aged 76 years. He had suffered for several years from the effects of a paralytic stroke, and his death was not a great surprise. He had been engaged in agricultural pursuits the greater part of his life. His surviving children are Messrs. Frank and M. F. Brown, of Howard county, James A. Brown, a merchant of Laurel, Md., Mrs. Larkin Brown, Mrs. Wm. Blowers and Mrs. Jas. Edelin. Mr. Brown's widow, who was Miss Mary E. Hands, survives him. The deceased was a life-long Democrat.

The funeral was from Mr. Brown's late home Surday, and was attended by relatives and friends from miles around Rev. James Nichols was the officiating minister. The pall-bearers were Messrs Wm. A. Wilson, Robert Alcorn, Jacob B. Souder, J. N. Mooze, G. D. Walter and H. H. Smallwood.

The Creamery Promotes Wealth. Farmers as well as business men in towns do not fully appreciate the effect on the growth of wealth in their midst that is exercised by the humble cream ery. A fact or two may help to fasten the question. The five creameries, situated within a radius of five miles at the farthest from Ft. Atkinson pay to the farmers annually over quarter of a million of dollars. The sugar factory at Ft. Scott, Ks., cost \$150,000, and in three years paid to the farmers of the surrounding country \$50,000. The twelve creameries of Dickinson county, Ks., cost at the farthest not over \$425,000. "It is quite a while since the pupils of Loretto Academy treated their friends door by those from the city and country, The number present must have been close on a thousand. The platform was handsomely decorated with pot plants, flowers and evergreens. The pupils, as usual on such occasions, were very neatly and becomingly dressed, and the pure white in which the most of them was habited was very pleasing. Apart from the effect of their training, as seen in their recitations and music, their deportment and the precision of their movements showed what care their teachers had bestowed and the success they had achieved in the thorough discipline manifested in all their movements. Promptly at seven o'clock the program was entered upon.

"Taken as a whole the concert was one of the most pleasing and successful ever given by the pupils of Loretto, which was the unanimous verdict of the delighted audience as was manifested by the hearty applause with which every piece was received. The concert occupied two hours exactly, thus allowing old and young to get home at a seasonable hour."

A correspondent says: "The sweet faces of Misses Bessie Watkins and Pearl Scott were foremost in the choruses and most bewitchingly charming in their parts as maids of honor, while Miss Dorsey's soul stirring voice thrilled the audience and her stately grace of form forcibly reminded one of Wordsworth's ideal. BALTIMORE COUNTY TEACHERS

A Howard County Teacher Attends Their Association.

BALTIMORE, May 24.—Time hanging heavily on my hands, I strolled into the Y. M. C. A. Hall last Friday. Seeing a good many pretty women and some not so pretty flitting to and fro, I imagin ed why they had assembled? I was informed that "the Baltimore county teachers will meet here today." I thought to myself, "I'll see how Balti-

Baltimore county teachers are somewhat like Howard county teachers, only a little more impatient, for they had a programme which was good, yet they became restless; to me it was very enjoyable, for there was so much to admire, good singing, instrumental music, lectures and pretty girls. By the way, talking about pretty girls, reminds me that Howard was well represented.

Your readers have all heard of Honolulu and the badty used Hawaian Queen and Princess. To me it was a country far distant; particularly celebrated as having the largest crater in the world. Until Friday it had existed in my mind as an island Kingdom, which would be a desirable coaing station for us in the Pacific. Through the splendid efforts of Dr. T. H. Lewis, president of Western Maryland College, we were delightfully entertained by an account of his visit to the islands. I shall al ways feel that I was well paid for my visit to the association. Now, while we Howard county teachers do not have visitors to entertain us when we meet still we have that delightful faculty of entertaining ourselves. While a programme rendered by others than members of the association is enjoyable and does not cost the members any labor, yet have talent among such a number. That is the fitting opportunity for it to be dis-

be rendered by members. The Baltimore county examiner made his appearance when the checks were being distributed. That being a species Oliver Miller here will be occupied of enjoyment in which I could not participate I adjourned highly pleased and gratified with my visit.

The Methodist preachers of New York lune. All are cordially invited to attend City at their regular meeting Monday resolved to withdraw the Methodist ex hibit from the World's Fair because of the proposed Sunday opening. Dr. Landon also sought to have adopted a resolution calling upon the Methodist Bishops to take some decisive action in relation to the condemnation of the opening of the World's Fair on Sunday. This came up in an extra session, held after the regular meeting. It was bitterby Drs. Evan W. Warfield and Augustus ly opposed by the Rev. Dr. John Roach and evoked a spirited debate. It was

Active preparations are now in progress for the celebration of cardnal Gibbons' twenty- fifth anniversary of this consecration as a bishop, which occurred on August 16, 1863, so the silver jubilee will fall on Agust 16,coming. The silver jubi ee of America's only cardinal is in event of the greatest importance to the Catholic world, and the celebration will be of an order to make it a red-letter day in the minds o all who participate in, or witness the event. Nor will the celebration be confined to the Catholics, for Cardinal Gibbons by this liberality towards the Knights of Labor and other bodies a few vears ago, made hosts of friends among aymen outside of the church, and hi never-ending courtesy to the clergymen of other denominations has made him most popular.

The Catholic Club of Baltimore at special meeting Tuesday night adopted an amendment to the constitution permitting the admittance of non-Catholics to membership with all the privileges of active members, except the right to vote and a voice in the management of the affairs of the club. There was some discussion on the subject, and the vote by which the amendment was passed was 76 to 25.

A petition signed by Wm. B. Wilson. Elias Livezey, Joseph M. Cone, James McNab, John S, Wilson, Louis F. Young and others has been presented to the county commissioners asking that the lamps be extended on the Frederick road from the terminus of the horse railway 800 feet to Benzinger's lane. This part of the road is in a valley. A driving accident occurred there about two weeks ago to Rev. Joseph Jennison. Commissioner Rittenhouse says the lamps are

Excuses for Boorishness. Gov. Pennoyer may be a fine example of wild Western candor, but even the Western man is expected to conform himself to the amenities of official intercourse when he is representing a com-

monwealth. Thackeray somewhere says that the most exalted example of self-importance is a tuppenny gentlewoman in a small town. In a sense it is generally true nacle met recently and accepted 23 that conscious weakness in being impertinent believes that it is assuming strength.

For a Governor to tell the President of the United States to mind his own business may be a fine example of that quality which is so much admired on the border and which there goes by the name of "gall," but it is no evidence of official dignity or intellectual discretion or self-respect.

Some of our contemporaries are trying to twist the offensive and undignified telegram of the Governor into a "grand constitutional truth," for nothing can be more deeply imbedded in our fundamen tal law than that Governors and Presi dents should mind their own business This is a large argument. There is nothing in our fundamental law which prevents Governors from being personally offensive, vulgar and stupid, if they are so inclined, and we suppose it is an evidence of Gov. Pennover's strict construction of the Constitution that he has shown his unalicnable rights in this

Negro Democracy.

The National Negro Democratic J. Taylor, of Kansas; Secretary E. S. C. Smith, of Alabama; Mr. Chinn, of its executive committee, and II. C. C. Astwood, of Louisiana, addressed a letter to President Cleveland upon a question seriously affecting the cause of negro Democracy in this country."

After criticising the Republican party for the treatment of the negro, the letter says that the league stood with the Democratic party when it was routed in 1888 and those who had received recognition were promptly chastised and summarily dismissed by the successful Republicans. In the last campaign the negro Democrats "in the face of insults and injuries of every kind, with his voice, his pen and his best energies, proclaimed for Grover Cleveland and reform. Negro Democracy then became a positive factor

in the body politic of the nation." The letter recites that the league i placed in a false light before the country because of the failure so far to recognize them in the distribution of patronage, and asks the President if the places held by colored Republicans, who have been and are now hostile to the league and the party with which it is identified. are to remain longer in the hands of po litical enemies.

To correct this abuse and to prove to he country that the Democratic party is true to the negro, as well as to redeem oledges made during the campaign, the league asks that speedy recognition be given by the President to negro Demoocrats and the places now held by negro Republicans be given to the league.

The Movement for Short Dresses. English society is not only agitated by in anti-crinoline crusade, but by what is named the Short Skirt League, led by Lady Haberton. Its object is to induce ladies to adopt a style of dress more suitable for out-of door wear than the present one. Every member who joins he league engages to wear walking dresses not less than five inches off the ground all around. It is argued that the weight and inconvenience of the present gowns are such as to deter women from the exercise necessary to the maintenance of good health, while they expose the wearer to sickness by absorption of moisture. The movement has common sense to commend it. Ladies' costumes nowadays are very unwieldly affairs, and unless the wearer holds them up while traversing the streets they sweep over all sorts of debris, dust and mud, and soon present anything but

an attractive appearance. The vast facilities of the J. C. Ayer Co., of Lowell, Mass., enable them to place The Superior Blood-purifier -Aver's Sarsaparilla-within easy reach of the poorest invalid. Don't be induced to take a "cheap" substitute. Always remember that the best is the cheapest
